

accuro

transcription on time

WELCOME TO ACCURO

Accuro is a market leading provider of digital dictation and outsourced transcription solutions to the medical sector. Established in 2002, Accuro provides medical professionals with an alternative, swift and cost-saving solution, through innovative technology and a panel of professional medical transcribers.

Accuro has created a 'marketplace' of committed industry typing specialists. We provide UK based medical transcribers to customers who, for a variety of reasons, have resource issues with their transcription. This may be a lack of suitable applicants for internal vacancies, holiday or sickness absence or alternatively, they prefer the simplicity of outsourcing this particular support function.

Based in Cheshire, Accuro specialises in General Practice, Private Practice, Private Hospitals, Medico-legal & Occupational Health. We have developed simple, easy to implement and secure software and processes enabling our customers to have full, flexible access to the service from anywhere at anytime.

We have invested in our own infrastructure and people so we can guarantee an unrivalled level of quality; our in-house professional proofreaders ensure your documents are produced to the same level as if you were typing them yourself.

If you are a busy Practice Manager, Consultant, Private Secretary, Operations Manager or just have a medical transcription need then our Account Managers are on hand to provide you access to the service within minutes.

ACCURO SPECIALISES IN A WIDE RANGE OF MEDICAL DISCIPLINES INCLUDING...

TRANSCRIPTION PROCESS... HOW DOES IT WORK?

The platform provides users with comprehensive MI including a view of work in progress.

WHY CHOOSE ACCURO?

Accuro has the largest, national panel of medical transcribers in the industry, all centrally managed by a transcriber liaison department. We have a core team of 450 UK based transcribers, rigorously vetted and audited throughout their time with Accuro. We can confidently say they are the best in the business.

Unlike other providers, Accuro employs a team of professional editors to ensure that completed transcripts are produced to an exact customer requirement with maximum accuracy.

Contract award is just the start of the journey and Accuro realises the importance of ensuring the continued satisfaction of all our customers. We have designated account managers and points of contact within the operational teams.

Accuro has made considerable investment in employing the right people with medical transcription experience both within the senior management team, technical teams and transcriber panel. To deliver the right results for our customers it is imperative that all staff have a real appreciation and understanding of the level of skill and care that needs to go into the production of medical documentation. We instil a 'right first time' approach.

COST BENEFIT ANALYSIS

- Eliminates fixed costs. Accuro operates a 'pay as you go' service therefore customers only pay for exactly what they need;
- No operational typing backlogs, ideal for managing peaks and troughs in work;
- No NIC or pension costs;
- No holiday and sickness absence costs;
- No HR management;
- No office space required;
- No fixture and fittings costs;
- Upscale and downscale immediately;
- Free and quick installation and training.

DATA SECURITY

The security of patient data is paramount in every aspect of our process.
